THE AVENGERS - ON A MISSION

- [the avengers: on a mission](#)
(2012, cd, usa, gudari records)

Wowie zowie !! If you like the music of Joe Zawinul and Weather Report, Allan Holdsworth, Pat Metheny or Mike Stern (to name a few fusion icons), you're in for a treat.

The Avengers are Beledo (guitar and compositions), Adam Holzman (keyboards), Lincoln Goines (bass) and Kim Plainfield (drums).

All four of them are accomplished jazz musicians. Adam Holzman worked with Miles Davis in the late 80's; Lincoln Goines has recorded with Michael Brecker and Mike Stern; and Kim Plainfield's credentials include Bill Connors and Edgar Winter.

Beledo, the main composer and the leader of The Avengers, hails from Uruguay where he led progressive rock bands Maytreya and Siddhartha.

Rumor has it that the Avengers will be signing with the MoonJune Records label.
